SUMMARY & MOTIVATION

Through project-based studies at my university, I have developed strong skills in front-end and back-end development, as well as UX/UI design principles. I can develop a web application using the technologies listed above, and I am enthusiastic about learning new technologies.

As a university student seeking employment, I am eager to learn new skills, reliable, motivated, and capable of handling multiple tasks. I am enthusiastic about contributing to and learning from the field I am working in. I am glad to have started my studies at XU University to acquire the knowledge required to kickstart my career as a software developer.
